

## **ABSTRAK**

Islam, mohammad saiful. 2022. *Penerapan Model Pembelajaran Make A Match Materi Sistem Pernapasan Hewan Kelas V SDN Tenggilis Mejoyo 1 Surabaya.* Skripsi. Program Studi Pendidikan Guru Sekolah Dasar. Fakultas Pedagogi dan Pesikologi. Universitas PGRI Adi Buana Surabaya. Pembimbing (1) Danang Prastyo, S.Pd. M.Pd. (2) Susi Hermin Rusminanti, S.Pd. M.Pd.

### **Kata Kunci : Make A Match, Sistem Pernapasan Hewan**

Penelitian ini dilatar belakangi saat PLP 1 di SD Negeri Tenggilis Mejoyo 1 Surabaya dalam pembelajaran ditemukan bahwa terdapat peserta didik yang kesulitan dan kurang aktif dalam mengikuti pembelajaran daring. Sehingga peneliti berinovasi untuk menerapkan model pembelajaran kooperatif tipe *make a match* yang bertujuan mengetahui bagaimana guru menerapkan model pembelajaran *make a match*, mengetahui aktivitas siswa di dalam penerapan model *make a match*, dan juga mengetahui hasil belajar dari siswa setelah di berikan model pembelajaran *make a match*. Populasi yang digunakan dari kelas V sebanyak 31 siswa. Dengan menggunakan sampel probability sampling dengan teknik *sample random sampling* karena pengambilan sampel dilakukan secara acak. teknik yang digunakan menggunakan statistik dan penskoran.

Berdasarkan hasil penelitian yang telah dilakukan terkait dengan aktivitas pendidik, aktivitas peserta didik, dan ketuntasan hasil belajar dengan menerapkan model pembelajaran kooperatif tipe *make a match* dengan ketiga instrumen tersebut mendapatkan kategori “Sangat Baik” dalam penerapannya walaupun masih terdapat langkah-langkah yang kurang sempurna dalam penerapannya.

## ABSTRACT

Islam, mohammad saiful. 2022. Application of the Make A Match Learning Model for Class V Animal Respiratory System SDN Tenggilis Mejoyo 1 Surabaya. Essay. Elementary School Teacher Education Study Program. Faculty of Pedagogy and Psychology. PGRI Adi Buana University, Surabaya. Supervisor (1) Danang Prastyo, S.Pd. M.Pd. (2) Susi Hermin Rusminanti, S.Pd. M.Pd.

### **Keywords: Make A Match, Animal Respiratory System**

This research was motivated when PLP 1 at SD Negeri Tenggilis Mejoyo 1 Surabaya in learning it was found that there were students who had difficulty and were less active in participating in online learning. So that researchers innovate to apply the make a match type of cooperative learning model which aims to find out how teachers apply the make a match learning model, find out student activities in the application of the make a match model, and also find out the learning outcomes of students after being given the make a match learning model. . The population used from class V as many as 31 students. By using a probability sampling sample with a sample random sampling technique because the sampling is done randomly. techniques used using statistics and scoring.

Based on the results of research that has been carried out related to educator activities, student activities, and mastery of learning outcomes by applying the make a match type of cooperative learning model with the three instruments getting the "Very Good" category in its application although there are still imperfect steps in its application.
