

## ABSTRAK

Purwati, Yeni Dwi. 2019. *Pengaruh Model Pembelajaran Kooperatif Tipe NHT (Numbered Head Together) Terhadap Kemampuan Kerjasama Siswa Kelas III Tema 3 Subtema 2 Pembelajaran 1 SD Hang Tuah 10 Juanda*. Skripsi. Program Studi Pendidikan Guru Sekolah Dasar. Universitas PGRI Adi Buana Surabaya. Pembimbing (1) Dra. Dian Kusmaharti, S.Si., M.Pd, (2) Danang Prastyo, S.Pd., M.Pd.

Kata kunci: *NHT (Numbered Head Together), Kemampuan Kerjasama*

Tujuan penelitian ini untuk mengetahui pengaruh model pembelajaran kooperatif tipe NHT terhadap kemampuan kerjasama siswa kelas III SD Hang Tuah 10 Juanda. Populasi pada penelitian ini adalah siswa kelas III SD Hang Tuah 10 Juanda. Sampel pada penelitian adalah siswa kelas III-A sebagai kelas eksperimen dan kelas III-C sebagai kelas kontrol.

Jenis penelitian ini adalah *Quasi Eksperimental Design*, sedangkan desain penelitian ini adalah *Posttest Only Control Group Design (Nonequivalent Control Group Design)*. Teknik pengumpulan data dilakukan dengan observasi penerapan model NHT dan tes sikap kerjasama. Penelitian ini menggunakan teknik analisis data statistik deskriptif inferensial dengan perhitungan manual. Teknik analisis data menggunakan uji-t.

Berdasarkan hasil observasi penerapan model pembelajaran NHT dikategorikan sebagai proses pembelajaran yang sangat baik. Sedangkan dari hasil perhitungan nilai tes sikap terdapat pengaruh penggunaan model pembelajaran kooperatif tipe NHT terhadap sikap kerjasama siswa kelas III SD Hang Tuah 10 Juanda. Hal ini dapat dilihat dari hasil perhitungan dengan taraf signifikansi 5% diperoleh hasil  $t_{hitung} > t_{tabel}$  atau  $3,29 > 2,00$  maka ada pengaruh penggunaan model pembelajaran kooperatif tipe NHT terhadap sikap kerjasama siswa kelas III SD Hang Tuah 10 Juanda.

## ABSTRACT

Purwati, Yeni Dwi. 2019. The Influence of NHT (Numbered Head Together) Type Cooperative Learning Model On the Cooperation Ability of Class III Students Theme 3 Sub-theme 2 Learning 1 SD Hang Tuah 10 Juanda. Essay. Primary School Teacher Education Study Program. Universitu of PGRI Adi Buana Surabaya. Advisors (1) Dra. Dian Kusmaharti, S.Si., M.Pd, (2) Danang Prastyo, S.Pd., M.Pd.

Keyword: *NHT (Numbered Head Together), Cooperation Ability.*

The purpose of this research was to determine the effect of the NHT type cooperative learning model on the collaboration ability of third grade students at Hang Tuah 10 Juanda Elementary School. The population in this study were third grade students of SD Hang Tuah 10 Juanda. The sample in the study was class III-A students as the experimental class and class III-C as the control class.

The type of this research is Quasi Experimental Design, while design of this research is Posttest Only Control Group Design (Nonquivalent Control Group Design). Data collection techniques are carried out by observation of the application of the NHT model and test of cooperation attitude. This study uses inferential descriptive statistical data analysis techniques with manual calculations. The data analysis technique uses the t-test.

Based on observations the application of the NHT learning model is categorized as a very good learning process. While the results of the calculation of attitude test scores with a significance level of 5% obtained by the results of  $t \text{ count} > t \text{ table}$  or  $3.29 > 2.00$  then there is the effect of using the NHT type cooperative learning model on the class III students' cooperative attitude SD Hang Tuah 10 Juanda.
