Shaw English is one of channel in YouTube in which explains the ways in pronunciation. As foreign language learners, Indonesian students often find problem with pronunciation when they speak, read, or listen to English words. This research focused on the effect of using video's Shaw English on junior high school students pronunciation.

The purpose of this research was to know the effect of using video's Shaw English on junior high school students pronunciation. This research used quantitative research type. The research employed the pre-test and post-test design. The Population of this study was the students of SMPN 1 Taman, Sidoarjo.

The results of this study was the effect has been indicated. It was proven by the results of students' post-test which has increased to 100 from 75 to 1 (one) student from 34 students in experiment group and 92 from 75 in 2 (two) students from 34 students in control group. The calculation of t-test showed that the t-value was 3.8. It was higher than t-table 1.66. The experimental group achieved higher result than control group. So that means there was an effect for this video on students pronunciation mastery.
