## Appendix 4 : Observation Transcription

### Student 1

No.	Observation	Note
1.	Student are able to use Augmented Reality for reading narrative text	It's new students' using the application for study. And her can following and using Augmented Reality.
2.	Student understand the material using Augmented Reality	With this was application student know about material.
3.	Students face problems in using Augmented Reality	Not significant but she has problems in access internet.
4.	Student enjoy using Augmented Reality for reading text	Students' like enjoy and comfortable using Augmented reality.

### Student 2

No.	Observation	Note
1.	Student are able to use Augmented Reality for reading narrative text	The first time using Augmented reality for learning student look confused, with the teacher explanation student can access.
2.	Student understand the material using Augmented Reality	She was looked understanding about subject material using Augmented Reality.
3.	Students face problems in using Augmented Reality	Students haven't problem significant when using the

		application.
4.	Student enjoy using Augmented Reality for reading text	Students interested with this application and looks comfortable and enjoy. It's look when she using Augmented Reality for reading.

### Student 3

No.	Observation	Note
1.	Student are able to use Augmented Reality for reading narrative text	Students' can using the application with the teacher explanation.
2.	Student understand the material using Augmented Reality	He was looking understanding about subject material
3.	Students face problems in using Augmented Reality	The problems using the application was about the internet connected.
4.	Student enjoy using Augmented Reality for reading text	Students were happy using the because it was joyful.

### Student 4

No.	Observation	Note
1.	Student are able to use Augmented Reality for reading narrative text	The first time he was confused with the application so after a while student can used Augmented Reality.

2.	Student understand the material using Augmented Reality	He was look understanding with the material.
3.	Students face problems in using Augmented Reality	He can not access the application because have internet.
4.	Student enjoy using Augmented Reality for reading text	Students' looking interest when using Augmented Reality for reading narrative text.

### Student 5

No.	Observation	Note
1.	Student are able to use Augmented Reality for reading narrative text	Yes, she was using Augmented Reality for the first time and she looks interesting.
2.	Student understand the material using Augmented Reality	She looks understanding with material when interview.
3.	Students face problems in using Augmented Reality	Students' have internet problem to access the application Augmented Reality.
4.	Student enjoy using Augmented Reality for reading text	Students happy and enjoy using Augmented reality for study reading,

**Student 6**

No.	Observation	Note
1.	Student are able to use Augmented Reality for reading narrative text	Yes, he was using the Augmented Reality for the first time
2.	Student understand the material using Augmented Reality	Students look understanding material using Augmented Reality that was look when interview,
3.	Students face problems in using Augmented Reality	The problem was signals to access the Augmented Reality.
4.	Student enjoy using Augmented Reality for reading text	Students' look joyful and interest with the method used Augmented Reality.

**Student 7**

No.	Observation	Note
1.	Student are able to use Augmented Reality for reading narrative text	It was first time learning using Augmented Reality.
2.	Student understand the material using Augmented Reality	She look more interest and understand material when answer the question.
3.	Students face problems in using Augmented Reality	Of course, the application had problem like as Signal wifi make a slow to access.
4.	Student enjoy using Augmented Reality for	The student enjoyed using Augmented Reality when her

	reading text	excited look a book
--	--------------	---------------------

### Student 8

No.	Observation	Note
1.	Student are able to use Augmented Reality for reading narrative text	For the first time using the Augmented reality
2.	Student understand the material using Augmented Reality	Her looked understanding the material when Interview
3.	Students face problems in using Augmented Reality	Students' have internet problem to access the application Augmented Reality.
4.	Student enjoy using Augmented Reality for reading text	Students happy and enjoy using Augmented reality for study reading,

### Student 9

No.	Observation	Note
1.	Student are able to use Augmented Reality for reading narrative text	Is firs time using the application.
2.	Student understand the material using Augmented Reality	His confused and can't understand because he not understand about English language.

3.	Students face problems in using Augmented Reality	Student have problems in internet access.
4.	Student enjoy using Augmented Reality for reading text	Students happy an enjoy know about the application.

### OBSERVATION

Name of Respondent: 10

Date of Observation: 28/11/2022

No.	Observation	Note
1.	Student are able to use Augmented Reality for reading narrative text	Is firs time using the application.
2.	Student understand the material using Augmented Reality	Her looked understanding the material when Interview.
3.	Students face problems in using Augmented Reality	The problem was signals to access the Augmented Reality.
4.	Student enjoy using Augmented Reality for reading text	Happy because the book a live.

Appendix 5 : **Document Transcription**  
DOCUMENT

No	Document Review	Note
1.	Students' understanding Augmented Reality	Students' understanding what is the Augmented Reality.
2.	Student understanding the structure Narrative Text of Augmented Reality	Student understanding about the structure text narrative with Augmented Reality.
3,	Students understanding the main idea of the main idea of narrative text	Student understanding main idea of narrative text.
4,	Students understanding the detail information in narrative text	Student know what the information in narrative text.
