Kata Kunci: *Cooperative Integrated Reading and Composition (CIRC)*, boneka puppet, keterampilan bercerita.

Keterampilan bercerita diperlukan untuk membantu peserta didik untuk berlatih mendengarkan dan berkomunikasi dengan orang lain dalam kesehariannya. Model *Cooperative Integrated Reading and Composition (CIRC)* merupakan model dimana siswa dibentuk secara kelompok saat pembelajaran berlangsung agar dapat menumbuhkan rasa percaya diri saat bercerita karena lebih dekat dengan teman-temannya. Media boneka puppet dipilih karena peserta didik mampu berinteraksi dengan boneka puppet dan sangat sederhana tidak membutuhkan banyak tempat maupun waktu pembuatan. Tujuan yang ingin dicapai dalam penelitian ini untuk mengetahui pengaruh model *Cooperative Integrated Reading and Composition (CIRC)* berbantuan boneka puppet terhadap keterampilan bercerita Kelas III SDN Tenggilis Mejoyo I Surabaya.

Penelitian ini menggunakan pendekatan penelitian kuantitatif dengan jenis penelitian quasi experimental design. Populasi adalah kelas III tahun ajaran 2021-2022 di SDN Tenggilis Mejoyo 1 Surabaya. Sampel diambil dengan teknik non probability sampling sehingga didapat 3A kelas eksperimen dan 3B kelas kontrol. Metode yang digunakan adalah tes dan teknik uji T dengan prasyarat uji normalitas dan uji homogenitas yang menggunakan aplikasi SPSS versi 26. Hasil penelitian menunjukkan bahwa terdapat pengaruh Model *Cooperative Integrated Reading and Composition*

(CIRC) berbantuan boneka puppet terhadap keterampilan bercerita peserta didik. Hal ini ditunjukkan rata-rata kelas eksperimen kemampuan bercerita peserta didik menggunakan Model Cooperative Integrated Reading and Composition(CIRC) berbantuan boneka puppet lebih baik dari pada kelas kontrol yang tidak menggunakannya.

Sari, Rike Wiyas. 2021. The Effect Cooperative Integrated Reading and Composition (CIRC) Assisted Puppet Storytelling Skills for Class III SDN Tenggilis Mejoyo I Surabaya. Elementary School Teacher Education Study Program. Faculty of Pedagogy and Psychology. PGRI Adi Buana University, Surabaya. Supervisor (1) Drs. Triman Juniarso, M.Pd. Supervisor (2) Via Yustitia, S.Pd., M.Pd.

Storytelling skills are needed to help students practice listening and communicating with others in their daily lives. The *Cooperative Integrated Reading and Composition (CIRC)* model is a model in which students are formed in groups during learning in order to foster self-confidence when telling stories because they are closer to their friends. media puppet chosen because students are able to interact with puppets and are very simple and do not require a lot of place or time to make. The aim of this study was to determine the effect of the Cooperative Integrated Reading and Composition (CIRC) aid of puppets on the storytelling skills of Class III SDN Tenggilis Mejoyo I Surabaya.

This study uses a quantitative research approach with a quasi-experimental design. The population is class III for the academic year 2021-2022 at SDN Tenggilis Mejoyo 1 Surabaya. Samples were taken using non-probability sampling technique so that 3A was obtained in the experimental class and 3B in the control class. The method used is a test and T-test technique with the prerequisites for normality and homogeneity tests using the SPSS version 26 application. The results show that there is an effect of the Cooperative Integrated Reading and Composition (CIRC) help of puppets on the storytelling skills of students. It is shown that the average of the experimental class's storytelling

ability of students using the Cooperative Integrated Reading and Composition(CIRC) puppets is better than the control class that does not use it.
