

Abstract

This study aims to calculate profitability and solvency predictions for investment decisions for mining companies listed on the Indonesia Stock Exchange in 2016 – 2020. The sample of this research is 11 mining companies. The sampling technique used is purposive sampling. The data source uses secondary data. This data analysis technique uses trend analysis. The results of this study indicate that profitability and solvency have increased and decreased. There are 3 companies experiencing increased profitability. The increase in profitability due to an increase in the company's stock price. There were 8 companies that experienced a decline in profitability. Decrease in profitability due to the attraction for investors to the company. There were 5 companies that experienced an increase in solvency. The increase in solvency was caused by a very large loss, even though it suffered a very large loss, it still earned a large profit. There are 6 companies experiencing a decrease in solvency. The decrease in solvency because it results in a low rate of return when the economy is high.

Keywords: Profitability, Solvency, increase and decrease.

Abstrak

Penelitian ini bertujuan untuk menghitung prediksi profitabilitas dan solvabilitas untuk keputusan investasi kepada perusahaan pertambangan yang terdaftar di Bursa Efek Indonesia tahun 2016 – 2020. Sampel penelitian ini berjumlah 11 perusahaan pertambangan. Teknik pengambilan sampel yang digunakan yaitu purposive sampling. Sumber data menggunakan data sekunder. Teknik analisis data ini menggunakan analisis trend. Hasil penelitian ini menunjukkan profitabilitas dan solvabilitas mengalami kenaikan dan penurunan. perusahaan yang mengalami kenaikan profitabilitas sebanyak 3 perusahaan. Kenaikan profitabilitas karena suatu meningkatnya harga saham pada perusahaan. Perusahaan yang mengalami penurunan profitabilitas sebanyak 8 perusahaan. Penurunan profitabilitas karena daya tarik untuk investor kepada perusahaan. Perusahaan yang mengalami kenaikan solvabilitas sebanyak 5 perusahaan. Kenaikan solvabilitas disebabkan oleh kerugian yang sangat besar, meskipun mengalami kerugian yang sangat besar masih mendapatkan laba yang besar. Perusahaan yang mengalami penurunan solvabilitas sebanyak 6 perusahaan. Penurunan solvabilitas karena mengakibatkan rendahnya tingkat pemngembalian pada saat perekonomian tinggi.

Kata Kunci: Profitabilitas, Solvabilitas, kenaikan penurunan.
