APPENDICES

DOCUMENTATION

RESULT OF INTERVIEW

Fitri : halo perkenalkan nama saya fitri, saya mau wawancara sedikit dengan kak kintan. Apakah kak kintan pernah berkomunikasi dengan orang tuli dari berbeda negara ?

Fitri : hello let me introduce my self my name is fitri, i want to little bit interview with kak kintan. Have you ever communicated with deaf people from another country ?

Kintan : iya pernah

Kintan : yes, ever

Fitri : sama siapa kak ?

Fitri : who is that ?

Kintan : pak herbert

Kintan : Mr. herbert

Fitri : itu orang tuli dari mana kak ?

Fitri : where's the deaf person from ?

Kintan : dari inggris

Kintan : from england

Fitri : oh ya, waktu berkomunikasi itu pakai bahasa isyarat apa ?

Fitri : when you and he communicated, what sign language do you use ?

Kintan : yang pertama komunikasi itu pakai gesture karena kan bahasa isyarat itu beda – beda saya pakai bisindo sedangkan pak herbert pakai bahasa isyarat inggris.

Kintan : first when communicate use gesture because a lot of sign language. I use bisindo while pak herbert use british sign language.

Fitri : bahasa isyarat inggris itu BSL ya ?

Fitri : brithis sign language is BSL righ ?

Kintan : iya benar BSL

Kintan : yes, sure BSL

Fitri : menurut kak kintan apa itu bahasa isyarat internasional ?

Fitri : in your opinion what it is international sign language ?

Kintan : bahasa isyarat internasional itu untuk komunikasi lancar antara bahasa isyarat indonesia dan luar negeri yang bersifat universal.

Kintan : international sign language is for fluent communication between indonesia and foreign sign language that are universal.

Fitri : oh jadi bahasa isyarat indonesia itu juga sifatnya universal ?

Fitri : so indonesian sign language is universal ?

Kintan : bukan, maksudnya bahasa isyarat internasional itu bahasa isyarat universal.

Kintan : no, the meaning is international sign language is universal sign language.

Fitri : universal itu yang seperti apa contohnya ?

Fitri : what universal is it for example ?

Kintan : hmmm, seperti bahasa inggris contohnya orang indonesia komunikasi dengan orang luar negeri itu pakai bahasa apa ? bahasa inggris kan ?

Kinntan : hmmm, like english language for example indonesia people communicate with foreigner in which language ? english right ?

Fitri : iya kak

Fitri : alright

Kintan : nah sama seperti bahasa isyarat, kalau ngobrol sama orang luar negeri pakai bahasa isyarat internasional.

Kintan : nah same with sign language, when communicate with deaf people another country use international sign language.

Fitri : waktu kemaren komunikasi sama pak herbert itu gimana perasaannya kak ? malu ? atau canggung gitu gak ?

Fitri : when you communicate with pak herbert what do you feel ? feeling embarrassed? Or awkward or another ?

Kintan : waktu ngobrol” sama dia ?

Kintan : when communicate with him ?

Fitri : iya kak

Fitri : yes, sure

Kintan : yang pertama perasaan saya waktu itu senang, bisa melihat bahasa isyarat baru.

Kintan : first my feeling is happy, i can see new sign language.

Fitri : terus kalau semisal waktu ngobrol” gak nyambung gitu gimana kak ?

Fitri : and then when you talking with him and do not understand what is mean ? what are you doing ?

Kintan : iya saya bingung.

Kintan : ya, i am so confused.

Fitri : kalau semisal gak tau itu bahasa isyarat apa waktu ngobrol sama pak herbert gimana ? pakai google atau tanya” siapa gitu ?

Fitri : if you do not understand what sign language while talking with pak herbert what are you doing ? do you use goole or asking with your friends ?

Kintan : kalau kemarin ada sedikit bantuan dari volunteer yang ada disana, yang kedua itu dari gesturennya.

Kintan : yesterday, there was a little help from volunteers who were there, and the second was from him gesture.

Fitri : oh jadi kalau misalnya bingung itu ngomong apa bisa lht dari gesture dan ekspresinya ya ?

Fitri : so if confused what Mr. Herbert means you can see from gesture and expression ?

Kintan : iya ada lagi sih semisal dia ngomong pakek bahasa inggris gitu saya minta tolong untuk di tulis gitu, jadi saya kayak “oh paham” gitu”. Kemarin juga saya di ajari abjad bahasa isyarat inggris dan saya mengajari abjad bisindo. Eh tapi bukan sih “SIBI” eh tapi apa ya lupa bahasa isyarat umum gitu, saya tanya bisa gak ? katanya gak bisa gitu. Trs saya tanya bisanya bahasa isyarat apa ? bisindo tapi dikit aja. Jadi apa ya ? apa gitu namanya ? Ya gitulah.

Kitan : yes, one more if him said with english i need help to write, so i feel like “ oh understand”. Like yesterday i learn from him abjad british sign language and i teach him abjad bisindo. Eh but SIBI, eh what is that i am forget like universal sign language and i asking from him, can you use this sign language? He said i can't. So i asking what sign language you can use ? he said bisindo but little bit not at all.

Fitri : sibi ?

Fitri : SIBI?

Kintan : bukan” ASL maksud saya.

Kintan : no, i mean ASL.

Fitri : ASL itu dari Amerika ?

Fitri : ASL that's sign language from america right ?

Kintan : iya Amerika.

Kintan : yes, america.

Fitri : ASL itu abcdnya sama seperti sibi ?

Fitri : the abjad from ASL like sibi right ?

Kintan : beda” ASL itu seperti sibi kalau sama bisindo beda. Eh tadi ngomong apa :D.

Kintan : difference ASL like sibi but bisindo differnt. Eh what are you talking about ? :D

Fitri : iya tadi itu yang saya maksd :D.

Fitri : yes, that’s i mean :D

Fitri : kak kintan belajar bahasa inggris gak buat komunikasi kemaren ?

Fitri : did you learn English to communicate yesterday ?

Kintan : iya saya belajar tp sedikit.

Kintan : yes i learn little bit of english.

Fitri : berarti kak kintan kemarin kalau gk faham pak herbert ngomong apa pakai di tulis dulu ya ?

Fitri : so, yesterday if you don’t understand what mr herbert talking about, you want to write right ?

Kintan : iya benar sama melihat gerak mulut tapi sedikit sih.

Kintan ; yes right and i looking the mouth motion.

Fitri : oh ya menurut kak kintan bahasa isyarat pak herbert kemaren itu gimana ? gerakan gesturenya itu cepat atau lambat ?

Fitri : in your opinion the sign language that mr herbert use yesterday like what ? is the gesture fast or slow ?

Kintan : iya kadang” cepet kadang” lambat, kurang tau juga sih karena kurang memperhatikan.

Kintan : yes, sometimes fast and sometimes slow, i don’t really know either because i don’t pay enough attention.

Fitri : waktu ngobrol” kemaren itu pak herbert paham gak ?

Fitri : when you talking with mr herbert is he understand what do you mean ?

Kintan : menurut yang saya lihat obrolan kami langsung nyambung lancar jadi saya rasa dia paham juga.

Kintan : in my opinion when i see our conversation, we immediately connected smoothly so i guess he understood too.

Fitri : oh apa karena gesture sama ekspresi itu ya ?

Fitri : is it because gesture and expression right ?

Kintan : iya sama juga pak herbert sudah belajar abjad bahasa isyarat indonesia (BISINDO). Tapi untuk isyarat kata”nya itu pakek bahasa inggris. Misalnya seperti “Tujuan” jadi “purpose” nah dia ngomongnya purpose bukan ngomong tujuan.

Kintan : yes, of course and Mr. Herbert have done learn alphabet of Indonesia Sign Language (BISINDO). But for the word sign, Mr herbet use English Language. For example like “Tujuan” become “Purpose” nah Mr Herbert said purpose not said tujuan.

Fitri : jadi kak kintan juga bisa ya bahasa inggris ? tapi bukan isyarat inggris.

Fitri : so, you can english language right? But not English Sign Language.

Kintan : iya bisa.

Kintan : yes, i can

Fitri : kemarin saya sempat tanya” dengan kak laura tentang bahasa isyarat internasional. Kak kintan bisa gak bahasa isyarat internasional?.

Fitri : yesterday i asked Laura about International Sign Language. do you understand about International Sign Language ?

Kintan : gak bisa karena belum belajar.

Kintan : no, because i haven’t learn about that Sign Language.

Fitri : tapi kemarin nyambung ya ngobrolnya ?

Fitri : but yesterday when you talking about him you feel connected right?

Kintan : awalnya saya gak nyambung tapi saya berusaha memahami seperti yang saya sebutkan tadi soal gesture dll yg sudah saya sebut.

Kintan : first time i am not connected with him but i tried to understand as I mention before about the gesture etc.

Nonton Vidio

Watching a video

Fitri : ini saya tunjukan vidio kemarin ya, itu tadi bahas apa sih ?

Fitri : this is i show about the video yesterday when you communicate with Mr. Herbert, what are you talking about with him ?

Kintan : itu tadi saya bingung, nah itu lht kan itu dia pakai bahasa isyarat inggris dan saya pakai bahasa isyarat indonesia.

Kintan : that is i am confused, nah you can see that Mr. Herbert use British Sign Language and I use Indonesia Sign Language (BISINDO).

Fitri : ini tadi ngobrolin apa sih ?

Fitri : what are you talking about with him ?

Kintan : itu tadi saya tanya soal teori ttg crap / kepiting. Nah lihat tuh dia paham dari gesture dan ekspresi.

Kintan : i asked to him about theory of crab. You can see that Mr. Herbert understand from gesture and facial expression.

Fitri : nah itu tadi bilang orang deaf dan dengar itu sama ? nah sama disini itu maksudnya apa ?

Fitri : nah in this video he said that deaf people and hearing is same ? from this statement what's the meaning ?

Kintan : hmmm apa ya?

Kintan : hmmm ?

Fitri : apa maksudnya setara ? tapi yang membedakan adalah cara komunikasinya ?

Fitri : maybe about equivalent ? but in this case which makes it different is in communication ?

Kintan : iya benar itu.

Kintan : yes, that's right

Fitri : kalau yang ini kamu tanya ke temen - temen ya ?

Fitri : in this case you asked with your friend right ?

Kintan : iya, tapi orang di sebelah itu juga baru belajar jadi sama – sama saling melengkapi kayak eh itu maksudnya gimana? Maksudnya gimana ? gitu.

Kintan : sure, but the person next door is also just learning so we are like complete each other. For example like eh what's the meaning about this sign? like that.

Fitri : oh saling melengkapi supaya nyambung gitu ?

Fitri : oh complete each other so that can be connected with Mr. Herbert right ?

Kintan : iya benar. Nah itu dia bilang kalau dia ngajar di indonesia gak di bayar / tidak di beri uang tapi dia tetap senang ngajar di indonesia. Nah itu dia juga jelasin kalau proses kesadaran mental itu lambat.

Kintan : that's right. So this is Mr. Herbert said that when he teach in Indonesia he never got a money but he feel happy teach in Indonesia. And so this is he explain about the mental awareness proses is slow.

Fitri : maksudnya anak tuli ?

Fitri : the meaning is Deaf people ?

Kintan : iya

Kintan : alright.

Kintan : nah itu bilang bahasa isyarat amerika dan bahasa isyarat inggris itu beda jauh katanya. Belajar bahasa isyarat inggris susah.

Kintan : and then he said that American Sign Language and British Sign Language is very differnt, learning British Sign Language very difficult.

Fitri : oh, bahasa isyarat inggrisnya susah ?

Fitri : oh, British Sign Language so difficult ?

Kintan : iya susah bahasa isyaratnya, nah itu bahasa isyaratnya inggris.

Kintan : yes, alright sign language, and that is you can see that a british sign language.

Kintan : oh ya itu "N" gak ada jadi nama saya "IATA" harusnya "KINTAN" tapi dia bilang iata gitu. Jadi saya bingung.

Kintan : oh ya, there is no alphabet "N" so my name become "IATA" it should be "KINTAN" but he said iata, so i am so confused.

Fitri : menurut kamu bahasa isyarat inggris itu susah apa gampang ?

Fitri : for your opinion british sign language is hard or easy ?

Kintan : susah

Kintan : hard

Fitri : susahnya itu seperti apa ? contohnya ?

Fitri : what difficult in that language ? can you give example ?

Kintan : beda seperti beda visual (mempraktekkan gerakan perbedaannya), jadi saya bingung gak sama gitu visualnya. Contohnya kayak visual huruf “S” (mempraktekkan gerakan perbedaannya).

Kintan : the visuality is very differnt (practice the differencess of gesture movement), so i am so confused with visuality. For example the visuality alphabet of “S” (practice the differencess of gesture movement).

Kintan : tadi kakak beritahu kalau bahasa isyarat internasional itu sama seperti ASL (American Sign Language), saya merasa itu beda jauh. Bukan merasa tapi memang sudah beda jauh. Jadi belum bisa di terapkan masih seperti baru proses pembuatan contoh seperti kamus bahasa indonesia, di ambil dari banyak daerah dan di kumpulkan.

Kintan : a few minutes ago you told me that International Sign Language is like American Sign Language (ASL), i think it’s so very different. So it can’t be applied yet, just like prosses to make that sign. For example, such as the Indonesian Sign Language dictionary, taken from many regional collected together.

Fitri : jadi bahasa daerah” itu di kumpulkan jadi satu untuk di jadikan kamus. Jadi sama seperti bahasa isyarat internasional, jadi harus lihat bahasa isyarat negara” lain ?

Fitri : so the regional languages must be collected together to be a dictionary. Same with International Sign Language, so we must to have a look at another sign language from another country?.

Kintan : di ambil” gitu.

Kintan : yes, that’s right take it like that.

Fitri : jadi menurut kamu bahasa isyarat internasional itu belum sukses ?

Fitri : do you think that International Sign Language has not been successful ?

Kintan : iya belum sukses, jadi banyak yang salah faham kalau bahasa isyarat internasional itu sama seperti bahasa isyarat amerika. Itu mungkin karena bahasa isyarat ASL itu lebih dominan jadi di anggap bahasa isyarat internasional mungkin gitu.

Kintan : yes, not yet successful, a lot of people misunderstanding if International Sign Language it’s same with America Sign Language. maybe america sign language is more dominant so a lot of peoplae assume that american sign language is international sign language maybe like that.

Fitri : iya soalnya saya lihat abjad bahasa isyarat internasional itu aku nonton di yutub itu sama seperti amerika. Berbeda di beberapa huruf saja semisal huruf “T” dan “G”.

Fitri : yes, because i see the alphabet of international sign language in youtube it’s same with america. The different is in alphabet “T” and “G”

Kintan : iya mirip di abjadnya saja tapi pada dasarnya berbeda.

Kintan : yes, it’s similar in alphabet but basically different.

Fitri : gimana menurut kamu tentang bahasa isyarat indonesia ? kan ada bisindo dan juga sibi nah itu lebih enak mana menurut kamu ?

Fitri : what do you think about Indonesia Sign Language ? there is BISINDO and SIBI, which one do you think is better ?

Kintan : bisindo

Kintan : BISINDO

Fitri : kenapa ?

Fitri : why ?

Kintan : yang pertama itu karena identitas tuli, yang kedua di buat oleh tuli sendiri, yang ketiga visualisasinya itu jelas langsung menuju konsepnya.

Kintan : first because of Deaf identity, second it's made by Deaf people itself, and third the visuality is clear straight to concept.

Fitri : kalau menurut kamu sibi itu gimana ?

Fitri ; what do you think about SIBI ?

Kintan : kalau dalam hal positif sibi bisa mengajarkan anak” tuli imbuhan, tetapi lama isyaratnya konsepnya itu harus satu”, dan juga di buat oleh guru bukan anak” tuli hmm jadi apa ya ? lebih enak bisindo pokoknya.

Kintan : in positive prespective sibi can learn deaf children prefix and suffix, but the concept of that sign must one by one, and that SIBI made by a teacher not by deaf people. So i think it's better BISINDO.

Fitri : gimana menurutmu tentang teman” tuli yang gak mau komunikasi pakai bahasa isyarat ? lebih suka pakai gerak bibir gitu?

Fitri : what do you think about deaf people who not communicate with sign language ? they feel better use lip movement ?

Kintan : contohnya saya, dulu saya gak pernah pakai bahasa isyarat ngomong terus, teman – teman menganggap saya sombong terus

saya tanya darimana saya sombong ? kenapa ?, katanya kamu gak pakai bahasa isyarat tapi ngomong” terus gitu. Menurut saya ada sisi positif tentunya saya bisa jadi penghubung teman” tuli dengan orang” dengar. Tetapi saya juga menghormati budaya tuli dengan menggunakan bahasa isyarat.

Kintan : for example like me, in the past I never use Sign Language and I talk all the time, a lot of my friends consider me that I am arrogant, and then I asked to them why you think that I’m arrogant ? they said that I’m not use Sign Language. So I think that there are a positive prespective of course i can be a connector to Deaf people with hearing. But I’m respect for Deaf culture by using Sign Language.

Fitri : jadi kamu sudah belajar bahasa isyarat ya ?

Fitri : so you have learn about Sign Language Right ?

Kintan : iya sudah, saya suka bisindo yang di buat oleh tuli karena bisa langsung memahami visualisasinya itu jelas lebih enak bisindo bukan sibi.

Kintan : yes of course, and I like BISINDO which made by Deaf people because it can be understand the visuality so i think it’s better BISINDO than SIBI.
