G. Langkah – Langkah Kegiatan Pembelajaran

Kegiatan Pembuka (10 Menit)

Guru:

Orientasi:

- Melakukan pembukaan dengan salam pembuka dan berdoa untuk memulai pembelajaran.
- Menyiapkan fisik dan psikis peserta didik dalam mengawali kegiatan pembelajaran.

Apersepsi:

Mengajukan pertanyaan yang ada keterkaitannya dengan pelajaran yang akan dilakukan.

 <p>Pre-Activity</p> <p>Read the text below.</p> <p>Global Warming Is it an end to our world?</p> <p>Global warming is a phenomenon used to describe the gradual increase in the temperature of Earth's atmosphere and oceans. Global warming is not a new problem but many people are recognizing that we are facing a serious problem. Climate change is apparent everywhere. Failed crops, economic slowdown, and deforestation are among the most serious impacts of global warming.</p> <p>First of all, there is irrefutable evidence that human activities have changed the atmosphere of our earth. Since the time we have been industrializing, we started polluting our waters and air, and have been releasing greenhouse gases that contribute to global warming.</p> <p>Secondly, according to research by the Greenpeace organization, there is evidence of extensive deforestation being carried out in Indonesia and other tropical countries around the world. These forests are used to grow crops like palm sugar, palm oil and coffee—the mainstay of Western society. Greenpeace reports (2012) that the impact of climate change is noticeable throughout Asia-Pacific, with a rising heat wave or heat stroke rate accompanied by wind and thunderstorms. This has started to affect the economy as well.</p> <p>Furthermore, the shifting weather patterns have made it difficult for farmers to grow crops. A recent study has shown that due to unpredictable weather patterns, there have been less hot temperatures (Reardon, 2007).</p> <p>In conclusion, global warming is not a new problem but we are fully responsible for it. But as the citizens of the world, we have to take every possible action to help overcome this issue. It is not only for us but for all the future generations to follow.</p> <p>Discussion</p> <ol style="list-style-type: none"> 1. What global warming? 2. Is it a serious problem? Why? 3. What kind of heat is given above? <p>© 2014 by WELLS/COM/1000</p>	<ol style="list-style-type: none"> 1. What do you think about the picture? 2. What is the text telling about? 3. What kind of text is it?
