ABSTRACT

Iklimah, Rizka May Bilqis. 2020. *The Influence of Using Quizizz Application on The Students' Vocabulary Achievement at The 7th Grade of UPT SMP Negeri 8 Gresik*. Undergraduate Thesis. English Language Education Department. Faculty of Teacher Training and Education. Universitas PGRI Adi Buana Surabaya. Advisor 1: Dra. Wahyu Bandjarjani, M.Pd. Advisor 2: Dra. Joesasono Oediarti S.M.Pd.

Keywords: *quizizz application, students' vocabulary achievement*

The present study aimed at finding out whether there was significant influence of using Quizizz application on the students' vocabulary achievement. The problem of students in learning English was because they did not have much vocabulary. Furthermore, they felt ashamed and insecure about trying to speak English. Based on the problems above, the researcher needs to conduct a study. In this study, the researcher focused on using Quizizz application.

The researcher used a quantitative approach with true experimental pre-test and post-test design. The data was taken from the seventh grade students of UPT SMP Negeri 8 Gresik. The samples which were chosen through cluster random sampling were two classes, VII C as the experimental class while VII D as the control one. The data collection technique used 10 multiple choices, 6 short answers, 2 essay items for vocabulary pre-test and post-test. In analyzing the data, the researcher used the T-test as the formula.

The result of the study could be seen from the hypothesis. The significant value or the T-test value were obtained by calculating was 5,636 while the T-table with a significant level contained $5\% = 0,05$. From the analysis above, the result showed that the $t\text{-test } 5,636 > t\text{ table } 1,99897$. Therefore, the Null Hypothesis (H_0) was rejected and the alternative hypothesis (H_a) was accepted. And also, it can be seen from the mean score of a post in the experimental group that was 61.15 while the mean score of the post-test in the control group was 39.31. It could be concluded that there was a significant influence of using Quizizz application on The students' vocabulary achievement at the 7th grade students of UPT SMP Negeri 8 Gresik.
