ABSTRAK

Muhamad Dafa, 2023. *Pengaruh Model Pembelajaran Project Based Learning Terhadap Hasil Belajar Melukis Tema Alam/Benda Pada Siswa SMP Katolik Angelus Custos 1 Surabaya.* Program Studi Pendidikan Seni Rupa, Fakultas Ilmu Sosial dan Humaniora, Universitas PGRI Adibuana Surabaya. Dosen Pembimbing: Sepbianti Rangga Patriani, S.Pd., M.Sn

Kata Kunci : *Project Based Learning*, Melukis, Alam/benda

Model Pembelajaran *Project Based Learning* (PJBL) ialah suatu model pembelajaran berbasis proyek, di mana siswa diminta untuk mengerjakan suatu proyek dengan kurun waktu yang sudah ditentukan. Penelitian ini menggunakan penelitian kuantitatif dengan Model Pembelajaran *Project Based Learning* (PJBL). Pada penelitian ini penulis menggunakan sampel data sebanyak 32 siswa di SMP Katolik Angelus Custos 1 Surabaya.

Adapun beberapa teknik pengumpulan data yang digunakan dalam penelitian ini yaitu; observasi, kegiatan praktek, kuesioner, pre-test/post-test, dan dokumentasi. Kemudian pada teknik analisis data yang dilakukan penulis, ia menggunakan beberapa hasil uji diantaranya adalah uji prasyarat analis yang meliputi; uji normalitas,koefisien regresi, regresi linier sederhana, dan uji linieritas. Proses analisis data yang dilakukan oleh penulis menggunakan aplikasi program SPSS 20 *for windows.*

ABSTRACT

Muhamad Dafa, 2023. The Effect of Project Based Learning Learning Model on Learning Outcomes of Painting Nature / Objects Themes in Students of Angelus Custos Catholic Junior High School 1 Surabaya. Fine Arts Education Study Program, Faculty of Social Sciences and Humanities, PGRI Adibuana University Surabaya. Supervisor: Sepbianti Rangga Patriani, S.Pd., M.Sn

Keywords : Project Based Learning, Painting, Nature / objects Project

Based Learning (PJBL) Learning Model is a project based learning model, where students are asked to work on a project with a predetermined period of time. This research uses quantitative research with the Project Based Learning (PJBL) Learning Model. In this study, the authors used a sample of 32 students at Angelus Custos Catholic Junior High School 1 Surabaya.

Some of the data collection techniques used in this study are; observation, practical activities, questionnaires, pre-test/post-test, and documentation. Then in the data analysis technique carried out by the author, he used several test results including the analyst prerequisite test which includes; Normality test, regression coefficient, simple linear regression, and linearity test. The data analysis process carried out by the author using the SPSS 20 for windows program application.
