

[ABSTRAK

Hasmiyanto, Dyna Pricilia. 2023. Teknik Pengaplikasian Foundation Foundation Mixing Terhadap Ketahanan Hasil Rias Wajah Pengantin Outdoor, Program Studi Pendidikan Vokasional Kesejahteraan Keluarga, Jurusan Tata Rias, Fakultas Teknik Universitas PGRI Adibuana Surabaya. Pembimbing: Dr. Yunus Karyanto, M.Pd

Teknik mixing foundation merupakan suatu pengembangan dalam teknik merias wajah. Teknik mixing foundation adalah teknik mencampurkan beberapa jenis foundation menjadi satu. Teknik mixing foundation ini juga dapat menghasilkan hasil riasan wajah yang tahan lama dan lebih halus dikarenakan teknik ini dapat menutupi semua permasalahan dalam wajah dengan sempurna. Penelitian ini memiliki tujuan untuk mengetahui ketahanan foundation pada rias wajah pengantin outdoor jika diaplikasikan dengan Teknik foundation

Metode penelitian ini adalah penelitian deskriptif dengan menggunakan pendekatan kualitatif. Hasil kuisioner mengenai teknik pengaplikasian foundation mixing terhadap ketahanan hasil rias wajah pengantin outdoor yang menurut pedoman interval presentase dan kriteria pada skor 86,6% itu sangat tinggi. Teknik pengaplikasian foundation mixing terhadap ketahanan hasil rias wajah pengantin outdoor yang berjumlah 86,6%. Maka dari teknik pengaplikasian foundation mixing terhadap ketahanan hasil rias wajah pengantin outdoor sangat tinggi, teknik pengaplikasian pemakaian foundation memang sangat berpengaruh terhadap ketahanan dan kualitas make up pengantin outdoor agar terlihat cantik dan anggun.

1. pengaplikasian foundation pada kulit wajah dinilai mampu menutupi pori-pori dan bekas jerawat,
2. bagi pihak penata rias diharapkan penelitian ini menjadikan bahan masukan untuk mengatasi permasalahan dalam pengaplikasian foundation terhadap hasil rias wajah pengantin.
3. bagi peneliti sendiri diharapkan sebagai ilmu pengetahuan yang tak ternilai dalam menjalankan profesi dalam bidang kecantikan
4. untuk penelitian selanjutnya supaya dapat melatih kemampuan dengan mengeksplor berbagai macam metode agar keterampilan dan kreatifitas dalam melakukan riasan dapat diterapkan secara maksimal

Keywords : teknik pengaplikasian, foundation mixing, ketahanan, hasil rias wajah

ABSTRACT

Hasmiyanto, Dyna Pricilia. 2023. Foundation Mixing Application Techniques on the Durability of Outdoor Bridal Makeup, Family Welfare Vocational Education Study Program, Makeup Department, Faculty of Engineering, PGRI Adibuana University, Surabaya. Supervisor: Dr. Yunus Karyanto, M.Pd

The foundation mixing technique is a development in facial makeup techniques. The foundation mixing technique is a technique of mixing several types of foundation into one. This foundation mixing technique can also produce long-lasting and smoother facial makeup results because this technique can cover all problems on the face perfectly. This research aims to determine the durability of foundation in make-up outdoor bridal face when applied with foundation technique This research method is descriptive research using a qualitative approach. The results of the questionnaire regarding the technique of applying foundation mixing to the durability of outdoor bridal makeup, according to the percentage interval guidelines and criteria, the score was 86.6% was very high. The technique of applying foundation mixing to the durability of outdoor bridal makeup, which was 86.6%. So, the technique of applying foundation mixing to the durability of outdoor bridal make-up is very high, the application technique of using foundation really influences the durability and quality of outdoor bridal make-up so that it looks beautiful and elegant. 1. Applying foundation to facial skin is considered capable of covering pores and acne scars, 2. For make-up artists, it is hoped that this research will provide input for overcoming problems in applying foundation to bridal make-up results.3. For researchers themselves, it is hoped that this will be invaluable knowledge in carrying out their profession in the field of beauty. 4. For further research, they can train their abilities by exploring various methods so that skills and creativity in doing make-up can be applied maximally.
